

JOB DESCRIPTION

Type of position: Paid, full time, January – June, with the possibility of extension.

Location: Office-based, London, UK

Closing date: Applications accepted on a rolling basis

BACKGROUND

FAIRR is an innovative peer network for investors harnessing the power of capital markets to transform global protein production away from an over-reliance on intensive animal agriculture systems. We work with over 250 investors representing over \$20 trillion in combined assets to use their power and influence to help global livestock, fish and dairy companies build a more sustainable global food system.

Building on the success of FAIRR's flagship research, the [Coller FAIRR Protein Producer Index](#), we are looking to broaden our capacity for research and engagement with the global food companies.

ABOUT THE ROLE

As a paid graduate intern, you will contribute to FAIRR's market-leading work to close the knowledge gap among investors on the risks associated with intensive livestock farming.

Examples of specific responsibilities could include:

- Preparing research and memos focused on issues related to intensive livestock production
- Developing briefing materials (talking points, background briefs, event logistics, external strategic documents, etc.) for the team's external activities.
- Developing tracking and monitoring systems on Excel to improve data gathering and analysis
- Assisting with organising FAIRR-sponsored events with investors and companies.

The intern will receive assignments from across the office. They will have opportunities to work independently and as part of a team and fully participate in the activities of a fast-paced work environment. They will also have the opportunity to represent FAIRR at leading external engagements and conferences in the responsible investment and sustainable development space.

REQUIRED QUALIFICATIONS

- Strong quantitative and qualitative research skills with the ability to perform independent research and analysis
- Good understanding of environmental, social and governance issues in the food sector.
- Fluency and experience working with Excel and database management systems like Salesforce.
- Excellent written and verbal communications.

COMPETENCIES

- Attention to detail, intellectual curiosity and an interest in sustainable food systems
- Ability to work on multiple projects and switch between different tasks as needed

HOW TO APPLY

Interested applicants should email their CV and cover letter to careers@fairr.org

***Applicants must be eligible to work and reside in the UK.*
