

# Internship

## Sustainability Research Assistant Analyst

### The Company

---

Mirova is the subsidiary of Natixis Investment Managers fully dedicated to sustainable investing.

Mirova's philosophy is based on the conviction that integrating ESG criteria into the investment process contributes to long-term value creation for the investor. As a result, we seek values positioned on sustainable development to benefit from sustainable growth trends that will shape the world in the coming years.

Some of these trends are based on demographic factors (population growth, ageing populations), others are socio-economic in nature (urbanization, changing modes of consumption in emerging countries, changes in global financial models), or are related to the environment (climate change, natural resource depletion) or technological innovation. Our investment process uses a fundamental approach based on bottom-up, conviction-based selection on the long term.

### The Position

---

The Responsible Research team is responsible for advising the fund managers on environmental, social, and governance (ESG) themes. This extra-financial information complements the traditional financial analysis to inform investment decisions.

The intern will assist with the following responsibilities:

- contributing to the ESG analysis of companies;
- analyzing Green, Social and Sustainability Bonds and monitoring the developments of the market;
- voting and engagement with issuers on governance issues;
- participating in the conception of client and external reports.

The intern will interact with both internal (research team and portfolio management team) and external (brokers, companies, other stakeholders) contacts.

### Candidate's Profile

---

A graduate of a business or engineering school, with a minimum of a bachelor's degree, a master's degree is preferred, and a Sustainability specialty is a plus the candidate can analyze and summarize information and has excellent writing skills.

The candidate would have a good command of written and spoken English with the ability to use software, particularly MS Excel.

**Length of the Internship: 6 months**

**Start Date: September / October 2019**

**Please send CV and cover letter to:**
