

## Job Description: ESG Analyst – Iceberg Data Lab

### **Missions and responsibilities**

- Assess companies' environmental footprint on several indicators (biodiversity / climate / financial risk, etc..) in your sectors of coverage.
- Conduct a critical review of the results and engage with clients to explain them.
- Develop an expertise about the environmental stakes and issues related to your sectors.
- Contribute to the development of our model working with the IT and Research teams.
- Conduct a critical review of the results to explain the methodology and results and support the Research team in methodological development.
- Assist in Iceberg Data Lab's Corporate and Business development.

### **Skills**

- Scientific/engineering or economist strong academic background are preferred.
- Graduate from a Masters program or 1-2 year junior ESG analyst.
- Experience in the following sectors would be a plus: Agri-Food; Power; Oil&Gas.
- Attracted by Sustainability and the Sustainable Finance sector.
- Analytical skills, knack for figures and ability to work autonomously are needed to thrive in that position.
- Fluent English a must, advanced French preferred.

1. You will have the opportunity to join a young, multidisciplinary and international team committed to accelerate the transition to a green, sober and fair economy. This is also an opportunity to develop sought-after skills (Life Cycle Analysis, Data Analysis, Impact assessment). ESG Data Analysts are trained on our different Environmental metrics.
2. We are looking for result-driven, motivated, and rigorous professionals to join our team. We look for individuals capable of wearing multiple hats, adapting to changing priorities and excited to be a part of a company which supports innovative approaches, risk-taking (and deal with mistakes!) as we seek creative solutions to assess the corporates' environmental impact. Team spirit is important in a small team sharing work, ideas and enthusiasm.

If these are goals and spirit you share, we will be happy to hear from you!  
The position is based in Paris.

- Compensation depends on profile and experience. We are attached to the Syntec Convention Collective.
- Benefits included (health/life insurance, home-work travel expenses, Tickets Restaurants).
- Starting Date: anytime
